

THE NICHE CLINIC

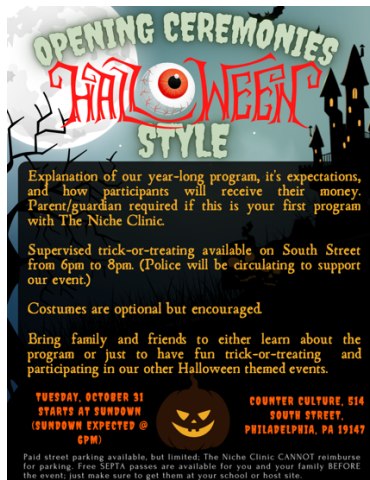

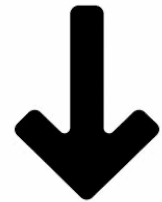

Sunday Niche Newsletter Sunday, September 23, 2023 Issue 2

Hopefully by now your various teachers at each of your schools are busy educating you on the powers and wonders of money.

For those of you who do not have a personal finance class using The Niche Clinic's curriculum at your school, it won't be long before Mr. LaSalle or other Niche Clinic staff expose you to the good and bad that comes with the most radical piece of technology ever known to human civilization - money!

To review: Please mark your calendars for our first two events: Opening Ceremonies on Halloween night (Tuesday, October 31) and Niche Night #1 (Thursday, November 16). Please see last week's issue - available on our website under the "Sunday Niche Newsletter tab" for the full-sized flyers.

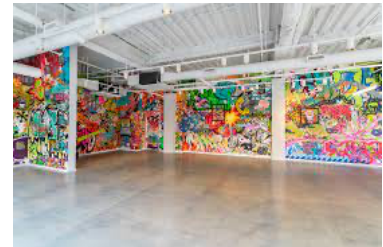

Most students will receive a "contract" for payment between Opening Ceremonies and Niche Night #1.

There are 2 exceptions. Students at Olney High will receive their contracts on October 9th and students at Camden Prep will receive their contracts on October 19th.

Returners will know that we use our headquarters (aka Counter Culture, 514 South Street) in many unique ways.

Other than the personal finance program going on currently, we will soon offer a scaffolded schedule that allows participants to honor their contract at their school, after school program site or Counter Culture to earn the maximum amount of money possible.

In our next issue, a survey link will be provided for "early contract negotiations." While you can negotiate and change your contract up until the signing date, the survey link will allow you extra time to do this.

...

In other words, if you complete the survey link next week then you get extra time to understand your contract options and re-write any portion of it that confuses you or you do not like before Opening Ceremonies

The only 2 non-negotiable elements of the contract are: 1) that each student does the same amount of work - even if the work is different - to get the same amount of money, and 2) each student earns 50 red Niche Coins to prove they are becoming financially literate.

MORE OPTIONS

Next weeks' survey will present you with these options and some new ones, but our most popular and recurring options will be available to select, such as....

Botany Team

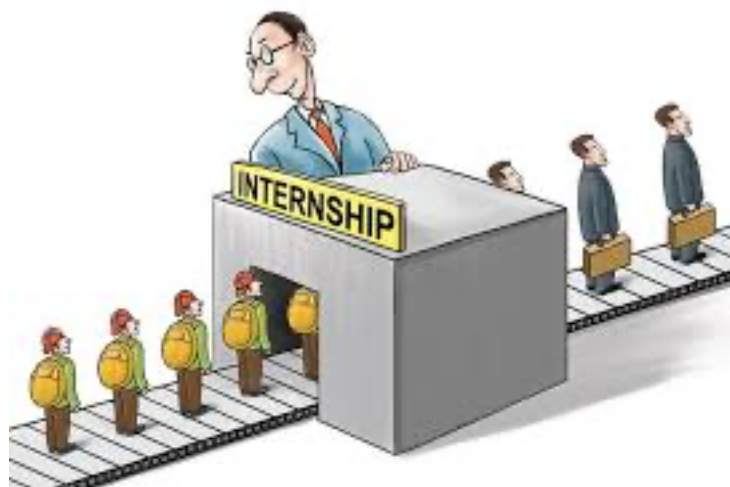

Biochemistry Team

Youth Talk
Trends Magazine
Editor

Finance Team

The Classic
Internship
Experience

Supervisor of the Classic Interns

Debate Team

Money Club

Chess Team

Until next Sunday, readers!
